Dr. McGrew's greys run away with his carciage on Sunday morning. The doctor was not in the schiele. The horses tore round the corner into Richard street, wrecking the carriage very com-pletely. The coachman was slightly nurt in the foot, so a by stander told us.

Riding out on the plains the other day, we were trook by the progress which many of the honess are analying there, decidedly there is going to be a rest advance in this part of the town. Some very anchouse houses are being put up.

The uplands around Ews are very dry, and the cathle have mostly been driven into the mountains. The excellent supply of water, however, which is derived from the springs surrounding the low-bands keeps the rice green and healthy.

In writing of the desolate appearance of the issued beyond Diamond Head, we used Wailupe instead of Wailane. Willings is neally kept and west planned with algerous trees. The land at Wainine, however, is in the condition we described.

As the S. S. Asstrain has been fitted with a new improved propeller during her recent any in liney, an increased rate of speed will be the ural result as in the case of the Zantautia. We therefore, lexpect to see her coming along on

substantial array of fine fireproof buildings and in appearance will be in marked contrast with the old wooden buildings which occupied these lots

Our friend X., that most efficient member of the Our friend X., that most efficient member of the police force was round the other day. He had prepared himself for his wondroos duties in the following manner: Item—a portion of a banch of bananas for the refreshment of the inner many item—a shingle wherewith to rest the weary body of the guardism of the public safety; item—a large white umbrella, lined with green, to protect X's, brain from the effects of the sun. Now that the order for carriages and expresses has been issued, to prevent their crowding the entrance to Alliolani Hale, it might be just as well to issue a regulation as to the way carriages should drive round Emma Square. At the present

time they have a happy faculty of getting into a block. But we suppose nothing will be done until we have killed a Minister. In England they always kill a Bishop to gain a point of this kind. Religious services are held regularly in Oahu prison in the hative language, and Mr. Sit Moon waits upon his numerous countrymen to preach the Gospell but the English-speaking portion of the immates have been almost entirely neglected hitherto. On Sunday last four gentlemen made a Christian call and held a short service, and with permission, they and others have promised to continue to offer spiritual consolation to the unfortunates.

The police anthorities were applied to the other day to regard to a man who was becoming very crass. The reply was properly, that an application should be made to a magistrate. The man had quieted off somewhat the next morning. The unfortunate man was suffering from over religious excitement. We are informed by two medical men that there are two other cases of similar character which they are treating, one being that of a lady.

We would like to know why the Chinamen who were witnesses of the fight between Pratz and the gang on Monday last, were not subponned at the trial? A lame story comes along that they were satisfied and did not wish to leave their work to come to Court. Justice requires all witnesses, at whatever inconvenience to themselves, to be present at such trials. Were the Chinamen frightened or bought?

Can anybody tell us what is "tinctural degenera-tion?" Last night we sat with a cigar in our mouth as usual, but having road our Press had all sorts of dreadful crespy feelings. We heard a man lately described as being affected with "historical sentimentalism, coincident with atrophy of the intellect." What a dreadful disease! Has it any-thing to do with smoking or any other mode of excitement?

We have seen the plan of the new We have seen the plan of the new structure which is to be put up in place of the old Union Saloon. It promises to be a commodious building well adapted for the purpose it is intended, viz., a printing office and two stores. We understand that Mr. James Campbell intends to put up a new store on the premises now occupied by Mr. Thos. G. Thrum. The street will soon present quite a handsome appearance.

A horse belonging to a gentleman largely interested in the money matters of this town, wentround collecting the other day. He marched into a Chinaman's store and pretty well astonished the Celostials. He had managed to run away with the wagon. It was some time before he could be persuaded that no bills owing were from that particular establishment. Finding the statement true the gallant grey permitted himself to be reliabilitated.

In connection with the Chinese Christian Church is a Sabbath School for boys. There were present on Sunday last 50 pupils and 18 teachers. This is strong evidence of the desire of Chinese youths is acquire a knowledge of the English language, and it is to be hoped, an insight into Christianity also. All Chinese are cordially invited to attend, and the object would be further promoted by employers of Chinese directing their servants to Fort Street Chinese Church every Sunday at 2:30 r. m.

Ma y foolish reports were circulated round own about the Chinaman who was assaulted by town about the Chinaman who was assaulted by Pratz. It was asserted at one time that he was dead, and that the authorities of the plantation would not permit any communication with town. There was no foundation for such reports. We must add that the manager, Mr. Richardson, was away at the time the outrage occurred, and that upon his return he did all in his power to relieve the injured man, appointing two white men to look after him.

We see Mr. E. P. Adams has taken one of the stores in Campbell's new block on Fort street: it is to be a show room for the California Furniture Manufacturing Company: we looked through the stock and noticed that some very handsome woods had been used in making the furniture up. One set especially struck us, being made of Primavera, a Mexican wood, California laurel and Tahitian amano: the effect was very pleasing. Anyone wishing to furnish will find an excellent assort-

Among the Chinese employed as cooks about the restaurants are some magnificently made men, we were very much struck with their physique, fine broad shopidered fellows, with well developed muscles: it is curious however, to notice how flab-by their muscles are; brace up a Caucasian's arm and the muscles are as hard as iron, but the Chinamen's muscle never harden. One has a good opportunity of studying form in the restaurants, because the cooks all work bare down to the waist.

The Minister of the Interior has issued an order The Minister of the Interior has issued an order forbidding the express wagons remaining about the doors of Aliotani Hale—they are to drive up, deposit the passengers and then to draw up at a distance from the door. This order is a good one, some months ago we adverted to the mipleusant crowding of the expresses around the door, which prevented any private carriage approaching. The order will probably be obeyed, as failure to obey will be punished by the withdrawal of the license.

We must apologize to His Honor for suggestion that he had been one of the judges at a race meeting after he became His Honor. As the law now stands it would have been an anomaly, it would have been no slur upon His Honor, since honorable men have filled the position all over the world. Our Police Justice, however, is always consistent, and as the law rends he would have been inconsistent to have neted as a judge in a horse race. We apologize to His Honor for the mistake that was made through erroneous information.

Mr. George Bicknell, partner of Mr. William Greig in the ownership of Fanning's and Washington Islands returned to Honolulu, in the last trip of the dennic Wolker, after an absence of twenty five years. Mr. B. is a brother of Rev. J. Bicknell of Hawaii, whom he intends visiting before his return. The Honolulu of twenty-five years ago and of to-day, rather astonished him. So marked were many of the changes that very few of the old familiar land marks remain to greet his

Another runaway occurred on Saturday. Mr. Wood's team became frightened and tore up Fort street at a break-neck pace. The policeman and some other people who were standing at the top of Fort street, attempted to turn the frightened animals by waving hats and handkerchiefs, but they only swerved, thereby bringing the wagon in contact with the corner, resulting in a thorough smash. The debris of the vehicle remained at the corner, while the horses continued on their course, and the last even of them by our informant was a cloud of dust in the distance.

"What is Gospel Temperance?" will be the subject of Mr. Hallenbeck's second farewell address, to be delivered on Friday evening at Fort street church. The service will commence as usual at half-past seven o'clock. As this is Mr. Hallenbeck's favorite theme, we may expect to see the church filled to overflowing. The warning to "Come carly," is almost unnecessary. On Saturday the friends of the Evangelist, with the kind permission of Judge McCully, purpose holding an informal reception at Pawaa. All friends are cordially invited to be there.

Yesterday afternoou a Norwegian, confined in the Station House, succeeded in making his escape. With the aid of a small piece of board which he tore off from one corner of the cell he managed to pry up one of the flooring planks, and crawled through under the cells to the Palama end of the building, and from there managed by the aid of a friendity plank to scale the wall into the Iron Works yard, when he was free to go where by pleased, which he did, and has not since been seen or heard of. No blane can be attached to the Turnkey for the Norwegian's escape, as the cell floors all seem to be in a rotten state, and only a slight exertion would be required on the part of an able-bodied man to effect an escape.

The setum of Mr. Hellenbeck to Honoluli has

Lewers gave \$250, and Mr. J. T. Waterloome \$1,000 on conditions that will ensure the success of the movement. The last named gentleman also promises an annual payment of \$250 for three years, on the building being announced free from debt, and kept so for that period. Other subscriptions have also been received, swelling the total to \$4,000. Messrs. Dempale, Atherton and C. M. Cooke were appointed a Committee to receive contributions, and are now prepared to meet their friends on that subject. Lists will be circulated for further subscriptions.

On Sanday last the remains of the late S. D. Bur on sanday ass the remains of the stee. D. Bur-rows were conveyed to a temporary resting place in Kawaiahao church-yard. Mr. Burrows was born in the year 1840, at Lahaina, and was consequently if years of age at the time of his death. The first 16 years of his life were spent in these islands, during which time he received a liberal education. A friend interested in his welfare took him to the latted States in his sixteenth year, and appren-A friend interested in his welfare took him to the United States in his sixteenth year, and apprenticed him to a carpenter and builder. His own ambitious disposition induced him to also acquire a proficient knowledge of stone-masonry, which in after years enabled him to fulfill with credit to himself the worthy position of contractor and builder in this city. After spending six years in Brockton, Mass, he returned to Honolula, and was shortly afterwards in business on his own account. His success as a builder induced him to erect the spacious and commodious mill and workshop now bearing his name on Fort street. Menuments of his skill exist in and around this city, specially in the suburban residences of Her Boyal Highness Ruth Keelikolani and the Hon. Simon K. Kaai, on the Palauna road, and also in the mansion of her ladyship on Emma street. His life generally was a busy one and an exemplary one for the native born Hawaiians. Though a half-easte, Mr. Burrows possessed all the energy and enterprise of a Bostonian, a trait which is but seldom developed among the majority of half-writes. He was Bostonian, a trait which is but seldom developed among the majority of half-whites. He was genial and kind, and held in high esteem by all who knew him. Heart disease was the cause of his sudden death. On Wednesday last, he was taken ill, and he died suddenly on Thursday morning. The funeral took place on Sanday afternoon at 2 r. m., from his late residence on Berstania street. The procession consisted of, the Band; the Fire Brigade; Ancient Order of Foresters; Red Men; Hearse; Relations and friends. The Foresters held a service at the residence, and also at the church, which was supplemented by a ceremony church, which was supplemented by a ceremony from the Red Men. The body will be removed to the family vault at Lahaina, by the steamer leav-ing next week. Mr. Burrows died intestate, and his nearest relative is Mrs. Maria King. Work was resumed at the Fort Street Mill on Monday last, and will be continued until all contracts are com-pleted.

Mahukona landing is busy on steamer days. The last time the steamer arrived there were 50 saddle horses down, 20 expresses and upwards of

300 people. The Likelike at one of her way ports landed 30 tons of freight and 60 passengers, she took in 20 tons and 50 passengers, and managed the job in two hours from anchoring.

Men after all are not so plentiful as you think, or if they are plentiful they won't work. On one place up here they are getting \$17 a month and it is difficult to get more at that, they are now asking

Mr. S. G. Wilder reports to us that the Chinese gang he employs give him every satisfaction. They work like Trojans, and are becoming thoroughly trained. When a new piece of land is to be attacked they make out with picks, then comes along the next gang with showels, etc., and before you know a piece of the road is made.

H. B. M. S. Gannet was at the moorings at Ma-H. R. M. S. Gamet was at the moorings at Ma-hukona when the Likelike left. She had just arrived from Kawaihae. On her way down she had had target practice, firing against the cliffs along the coast. The big shot made the rocks fly we are told. Major Wodehouse had visited several of the British residents on the island. The Gannet ex ected to leave for Hilo on Saturday.

We had not received full particulars about the We had not received full particulars about the Monitor when we wrote our notes of last week. We are told that the vessel reached her moorings on Monday Sept. 5th, discharged her cargo in four and a half days, took in 45 tons of ballast and sailed Sept. 10th for Humboldt, from which port she is immediately to return with another cargo. Things are done pretty smartly when they mean business in this part of the country.

A fire occurred on the Pahala Plantation on Sunday the lith instant. It originated in Mr. C. Wall's cane-field, which had been burnt off on the Thursday previous, after the crop had been ground; and the fire was supposed to have gone out. But a gale which sprung up on Sunday farned the smothered embers, the fire rapidly spreading to an adjoining field of cane belonging to the Agricultural Company. About twenty acres of ripe cane were burnt, before the progress of the fire was arrested. No great less will be sustained by the accident, as the cane will be cut and ground by the accident, as the cane will be cut and ground at once, and the yield will be but little less than if the fire had not occurred. No blame can be attached to Mr. Wall, as he had kept a lookout on his burnt field for two days, and it was supposed that the fire was entirely extinguished.

The artesian well at Mahukona has got down about 200 feet. The workmen have now reached about 250 feet. The workmen have now reached a very hard stratum of rock, and find it very difficult work to get through it. In a watch of 12 hours only 3 inches have at times been pierced. It is hoped that under this fresh water may be struck. At present there is water within 24 feet of the top of the pipe, but the water is salt. It is to be hoped that this well will be successful as a great deal depends upon it. Should it fail it will entail a very great expense in carrying out the earlier portions of the railway. At the present time all water has to be carried up, and when the laying of rails is commenced from Mahnkona, it will be necessary fo carry water from Honolulu to supply the locomotive, until such time as the track reaches a place where fresh water can be obtained.

On Sunday last, the Rev. Mr. Rouse of Makawao, preached an interesting discourse in the Congrega-tional church. A good andience in attendance.

The Princess Recent, Princess Likelike, Hon. J. M. Kapena and wife and Miss Sheldon, left Makawao Monday, September 12th, and arrived in Wainku at 3 r. m. On Tuesday evening, the Courthouse was filled, and addresses delivered by the Princess Regent, P. M. G. Kapena, Rev. M. Kahale and Hon. Kalua. The royal party left for Lahaina early Wednesday morning.

The regular meeting of the "Wailuku Literary Society," was held last Monday evening, at Mr. Taylor's. The exercises consisted of readings from various authors, and nussic. At the next meeting which will also be at the residence of Mr. Taylor there will be a debate.

Four Chinamen, while working in a ditch near Lihue, were injured by the bank sliding in on them: one had a rib broken, one his leg badly bruised, one injured internally in the lower part of his bowels, and the fourth was only slightly bruised in

The Make experienced very rough weather on her last trip down. She could not make a landing at Kapaa, and the same thing occurred at Kahili. In going round the point to Kalihi-wai Bay, one boat was washed loose from the davits and she shipped a heavy sea, the water drenching a part of the cabin.

On Friday September 2nd, an old native n Mahn, disappeared from his home near Kapaa.

On Saturday, search was made for him, but he could not be found. On the following Thesday, some one passing near where he had resided, smelled an awful stench, and on investigation, discovered the old man's dead body; he had gone into me rushes nearthis house and lain down and ed there, the man was very old and lole.
